

RAINLINE™:

New this season Rainline™ is now available in two new fashion colours; HEATHER and ROSEWOOD, available as a LIMITED EDITION for Spring 2017. They are available from March '17. A slim profile leg, gives it a sleek appearance.

COMFORT:

- ❖ Stretch bellows that allows the boot to fit almost any calve without being bulk and requiring clumsy straps to keep it from falling open.
- ❖ Underfoot the 6mm **NITROCELL™** footbed provides a soft cushioning for an athletic shoe feel.
- ❖ **HEXZORB™** technology in the heel absorbs heel strike shock for day long
- ❖ **SUPERDRI™** lining wicks moisture away from the wearers foot to prevent a sweaty and uncomfortable feel, it is fungus and rot proof so will not smell like cotton lined boots.

WARM:

- ❖ Although not lined with neoprene, the 6mm **NITROCELL™** footbed has a million microscopic nitrogen bubbles that insulate the wearer from cold surfaces, no need for special 'Welly Socks' that roll down and rub.

WATERPROOF:

- ❖ Double tested in production the Rainline™ is waterproof to the top including the innovative 'Stretch Bellows'.
- ❖ 4mm rubber over the whole foot area makes it highly resistant to puncture and flex cracking.

GRIP:

- ❖ The well respected **TRAX™** outsole in **DURAPRENE™** rubber gives sure footed grip, way a head of the competition.

CODE: GRAIN

SIZES: HEATHER, ROSEWOOD, AUBERGINE, NAVY, SAGE 3-8.
