

Task ID	Section/Component	Description	Estimated Time to Fix (ETTF) in	remaining	Status	Notes
24	Member Confidential/Marketing login	Product search - entered bolus in product search. Shows all suppliers with keyword bolus, text about supplier cutting off.	0.50			Done MH
26	Member Confidential/Marketing login	Supplier search - 'Read more' in some suppliers going under the logo. Is it possible to keep logos to the left and text to the right without any text dropping down.	0.50			Done MH
30	Supplier Login	Email members - selected members box to be widened as Furness & South to big for box.				Done MH
31	Supplier Login	Email members - Insert/edit link and insert/edit image. Can we have the ability to search on our computers and upload files	1.00			
32	UF Admin/ Manage Companies	In edit listing of a supplier already created I have 3 tabs Listing Details, Images and Publishing but if I create a new listing I have 5. If parameters and article URL not required can we hide?				
33	UF Admin/ Manage Companies	In edit listing I went into supplier 'Bimeda' and tried to add a file in choose file. It will only let me choose one file and I don't know where on the page this will be viewable to the members. Some suppliers want pictures in between text i.e Faulks and Cox. Save and save and close buttons not working.				Please check approache used. It is neat and should be fine.
34	UF Admin/Manage companies	Add/amend listing - Please remove map				Done MH
37	UF Admin/Manage Terms/New	Term name field - can this box be lengthened - 50 chars ?				Done MH
38	UF Admin/Manage Terms/New/Term File	Trying to upload new terms - click on select file and window opens up with a view that says folder, image URL. I can just see the the top of choose file button in the pop up.				

41	UF Admin/Manage Companies	I don't have the option to change font or font size in suppliers homepage text. Tried to add Tab - double line spacing when I enter text no option to change font size anywhere on the site				Done MH
42	UF Admin/Supplier Member Admin/Country UF Brands	I was trying to upload a file in Country UF Brands, product images for members to have the ability to download for marketing material but I am not able to browse and pick up a file on my computer. If I click on insert file a box opens up asking for the URL. The same applies to all tabs. I need to be able to upload files and images to all tabs.				
44	UF Admin/Manage Terms/New/Allocate Terms to Members	Select Supplier - Autofilling with AW Jenkinson. Can this just say select supplier and selected members box be widened.				
45	UF Admin/supplier Member Admin/manage terms and files	in the + beside each term or supplier file, can one file collapse when another is opened.				
46	UF Admin/manage terms	In the published terms section the terms are in order alphabetically by supplier name, can we add a further filter so that they are in order of terms file name.				
47	UF Admin/Manage Companies	I amended the font in A W Jenkinson, changed first part to <b>BOLD</b> and saved - but when I check in supplier search - nothing has changed.				
48	UF Admin/Manage Companies	Listing details - Add Tab. Double line spacing and no control over font size or font even when using paste from word symbol. <b>SEE TASK ID 41</b>				
49	UF Admin/Manage Companies	Added a tab but no browse button to upload images or files from my computer.				Done MH
	Question	I am just a bit unclear about how I should manage this as I don't want files just going in one big list. I was in manage companies and looking at how to add a suppliers homepage text and upload any images within the text and just wondered how they are stored.				

	Question	When I create a user whether a member or supplier user is the username and password automatically created or just the password.				
	Question	Can you remind me where the section is that				
50	UF Admin/Manage Users/New	Creating a supplier user. There is a field 'select document' with a drop down of marketing, offers, price lists and terms. Not sure why we have that field in this section.				
51	UF/Admin/Manage Companies/homepage and any added tabs	In the homepage and all tabs related to the supplier mini site I need the ability to upload images, files and links. Images and files I need to pick up the from my computer and links are for linking to a suppliers own website where we can link to catalogues or technical information like data sheets etc.				
52	UF Admin/Manage Companies/Edit Listing/Images	In as supplier A W Jenkinson and want to add a 2nd logo in images. When I click on save or save and close both are not working.				
53	Logged in as a member/supplier search	If supplier has two company logos can we have them one below the other.				

Total Outstanding Work

Tested / Notes
Read more to be sorted. Where text is cut off it should have ... Read More at end of text. The text should not wrap below the image. Can we find a way to ensure that all entries have a maximum number of characters (they all seem to cut off in different places at the moment) and don't cut off in the middle of a word ?
Read more to be sorted. Where text is cut off it should have ... Read More at end of text. The text should not wrap below the image. Can we find a way to ensure that all entries have a maximum number of characters (they all seem to cut off in different places at the moment) and don't cut off in the middle of a word ?
Not sorted, this need to be fixed in the members box AND selected members box. Make the Document Type box smaller in order to fit the other boxes in - as its much wider than it needs to be. It could even be dropped down to the line below as a normal drop-down box next to Subject.
This is complete except for making the attachment visible in Manage Emails (admin)
Remove/Hide the Parameters and URL tabs. We cannot remove all of these as some are used. Will discuss on call but I would prioritise this as a 3 (yellow) anyway.
Allow the supplier homepage to have multiple images (check Faulks and Cox on existing live website for example)
I clicked on choose file then start upload and it says File name must only contain alphanumeric characters and no spaces. We save the supplier terms on our computers i.e. Animax UF Terms 1st Sept 2016 - 30th August 2017 the same as the file name. Would it be possible to upload the files as they are rather than go over them all taking out spaces and dashes?

Checked with AW Jenkinson and added some bold.

In all places where you can upload a file and create a link - can we have a way to rename the link ? (for example the link might be /uk\_farmers/media/uploads/file.xlsx but we want it to display "something else" (we should be able to call it whatever we like)
