

# CuO Comparison - OptiCop versus competitor products

This shows the absence of unoxidised metallic copper, which cannot be absorbed by the animal, in OptiCop as opposed to competitor products.

	Needles	Needles x4 mag	Ground needles	Ground needles x4 mag	Ground needles x4 mag
OptiCop					
Competitor A					
Competitor C					
Irish Competitor					

## Notes:

- CuO needles in the first column are approximately 4mm long.
- Samples prepared and images taken March 2016.

## OptiCop®
