

TREDZ™

5.0 TECHNOLOGY™

Tough texturised nylon face with a durable water shedding finish

5mm light bouyant insulating foam

Moisture wicking terry knit lining

TREDZ™ TREDZ™ (DURAPRENE™ rubber).
Oil resistant and passes
TM144: 1999 slip resistance test.

Stability
FOOT-FRAME™ provides stability
and increases torsional resistance
in the arch.

HEXZORB™ technology moulds a
shock-absorbing component into the heel.

Grip zone
Our TWIST-GRIP™ studs bite
into soft surfaces.

Traction
Large blocks feature moulded SIPING,
acting like small grooves on a tyre,
to expel liquid and increase contact
with the ground, reducing aquaplaning.
